

DIRECTIVE

PROVINCIAL COURT OF MANITOBA

RE: Case Management Conference Coordinator's Docket

Commencing April 15, 2010 a Case Management Coordinator's Docket will sit every Thursday at 2:00 p.m. in Courtroom 302 presided over by Laurie Desrochers, the Case Management Coordinator.

The Case Management Coordinator will be responsible for monitoring matters which have been the subject of a Case Management Conference (CMC). Once a CMC date has been confirmed with the Trial Coordinator's Office, the matter should be adjourned to the next Case Management Coordinator's Docket two weeks from the date of the CMC.

It is expected that when the matter appears on the Case Management Coordinator's Docket, dates for preliminary inquiry or trial which have been previously confirmed with the Trial Coordinator's Office will be set unless:

- ▲ The Case Management Judge has determined that a further CMC is required and the matter is being adjourned to the next Case Management Coordinator's Docket two weeks from the date of the next CMC;
- ▲ The matter is resolved and is being adjourned to a sentencing date; or
- ▲ The Case Management Judge has authorized an adjournment in advance.

Counsel are not required to appear for the Case Management Coordinator's Docket where the Case Management Coordinator has been provided with a sentencing date, remand date authorized by the Case Management Judge, or the previously confirmed preliminary inquiry or trial date along with a trial slip signed by the accused **no later than 3:00 p.m. on the day prior to the appearance**. Individuals with a personal appearance requirement must appear.

If counsel request an adjournment that has not been authorized by the Case Management Judge, a further CMC must be arranged before the adjournment will be permitted.

The Case Management Coordinator may be reached as follows:
