

# NOTICE

## PROVINCIAL COURT OF MANITOBA

### Re: Child Protection Proceedings

The Provincial Court of Manitoba is concerned about timely and efficient child protection proceedings. Attached to this Notice you will find a document setting out the Court's minimum expectations of counsel when appearing on Provincial Court child protection proceedings throughout Manitoba. Counsel are expected to attend court and be prepared to address the Court on each of the questions set out in the attached document at every child protection appearance.

Counsel are reminded that motions can be filed in Chambers, in the appropriate court centre, in order to facilitate timely proceedings. For example, if the agency will be bringing a motion for substitutional service, this can be filed in Chambers rather than waiting for the next child protection court to make the motion.
