

NOTICE

PROVINCIAL COURT OF MANITOBA (WINNIPEG CENTRE)

Re: Case Management Conferences - Mandatory for all Hearings set for Three Days or More

The Provincial Court of Manitoba is concerned about the effective utilization of court time, particularly matters that are set for multiple days. Effective immediately, any hearing that is set for three days or more will require that a case management conference be set to discuss the issues. The Profession is reminded that it is expected that counsel of record will attend the case management conference, having discussed the issues in advance, having received substantial disclosure and be ready to make substantive decisions related to the matter.
